NTK.365	#0013 – Teams Meetings Chat
Title:	Teams: Introducing Chat Bubbles in Teams Meetings
Available:	July 2021
Message:	<p>Previously, Teams users needed to manually open the “Show conversation” chat panel/window to view the chat during a Teams meeting. Now, Chat Bubbles will appear on the screens of meeting participants.</p> <p></p> <p>Chat bubbles will be turned on by default. However, if you have the Show conversation chat window/panel open during the meeting, the chat bubbles will not display. You will see the chat within the Show conversation window/panel.</p> <p><u>Users that do not desire to see the chat bubbles will need to navigate to the meeting ellipsis and select “Don’t show chat bubbles”.</u></p> <p></p>
